

PPE RECOMMENDATIONS

ELECTRO·HYGIENE SYSTEM

HYGIENICA™ is committed to our technology being used by highly trained Disinfecting Specialists for the purpose of mitigating the effects of COVID-19. We encourage all of our users to have the appropriate Personal protective equipment, or PPE, which is an essential protocol for all Disinfecting Specialists. Technicians that use HYGIENICA™ technology need to be trained and properly outfitted in PPE and adhere to strict operational protocols such as OSHA-compliant cleaning methods, the use of EPA registered disinfectants and robust safety training. Please refer to our Safety Protocols document for full detail.

| | | |
|--|--|--|
| | | EYE PROTECTION Basic Safety Goggles Chemical Splash Goggles Face Shield |
| | | FACE COVERS Surgical Mask N-95 Respirator Half-mask Respirator Full-face Respirator |
| | | HAND PROTECTION Disposable Latex Gloves Disposable Nitrile Gloves Rubber Latex Gloves |
| | | HEAD TO TOE PPE* Flame Resistant PPE Cotton/polyester Blend PPE Closed-toe, Slip Resistant Shoes |

*Depending on PPE requirements of your disinfectant solution, head to toe PPE, like a Tyvek suit, may be required. Please refer to your solution's Safety Data Sheet for specifics.
